INDEPENDENT AUDITORS' REPORT

**Board of Trustees
Township of Mason, Michigan**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Township of Mason, Michigan, as of March 31, 2006, and for the year then ended, which collectively comprise the Township's basic financial statements, as listed in the contents. These financial statements are the responsibility of the Township's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Township of Mason, Michigan, as of March 31, 2006, and the respective changes in financial position for the year then ended in conformity with U.S. generally accepted accounting principles.

The budgetary comparison information, on pages 17 through 18, is not a required part of the basic financial statements, but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it. The Township of Mason, Michigan has not presented the management's discussion and analysis that the Governmental Accounting Standards Board has determined is necessary to supplement, although not required to be a part of, the financial statements.

Board of Trustees
Township of Mason, Michigan

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Township of Mason, Michigan's, basic financial statements. The supplementary information, as listed in the contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Township of Mason
NOTES TO FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The accounting policies of the Township of Mason, Michigan (the Township), conform to U.S. generally accepted accounting principles (hereinafter referred to as generally accepted accounting principles) as applicable to governments. The following is a summary of the more significant policies.

a) Reporting entity:

The accompanying financial statements present only the Township. There are no component units, entities for which the Township is considered to be financially accountable.

b) Government-wide and fund financial statements:

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the non-fiduciary activities of the Township. The effect of inter-fund activity has been removed from these statements.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function; and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and the fiduciary fund, even though the latter are excluded from government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

c) Measurement focus, basis of accounting, and financial statement presentation:

The government-wide financial statements are reported using the economic resources, measurement focus, and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources, measurement focus, and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available if they are collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Township generally considers revenues to be available if they are expected to be collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, expenditures relating to compensated absences, and claims and judgments are recorded only when payment is due.

State grants, licenses and permits, charges for services, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable only when cash is received by the government.

Township of Mason
NOTES TO FINANCIAL STATEMENTS (Continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

c) Measurement focus, basis of accounting, and financial statement presentation (continued):

The Township reports the following major governmental funds:

The General Fund is the government's primary operating fund. It accounts for all financial resources of the Township, except those required to be accounted for in another fund. Revenues are primarily derived from property taxes and state shared revenue.

The Sewer Debt Fund accounts for the financial resources used for the payment of long-term debt. Revenues are primarily derived from special assessments.

Private-sector standards of accounting issued prior to December 1, 1989, are generally followed in both the government-wide financial statements to the extent that those standards do not conflict with the standards of the Governmental Accounting Standards Board (GASB). The Township has elected not to follow subsequent private-sector standards.

The Township reports a single fiduciary fund, Agency Fund, which accounts for assets held by the Township in a trustee capacity or as an agent for individuals, private organizations, other governments, and/or other funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

Amounts reported as program revenues include: (1) charges to customers or applicants for goods, services, or privileges provided; (2) operating grants and contributions; and (3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

d) Assets, liabilities, and net assets or equity:

i) Bank deposits - Cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Pooled interest income is proportionately allocated to all funds.

ii) Receivables - In general, outstanding balances between funds are reported as "due to/from other funds." No allowance for uncollectible accounts has been recorded as the Township considers all receivables to be fully collectible.

iii) Prepaid items - Certain payments to vendors reflect costs applicable to future fiscal years and are recorded as prepaid items in both government-wide and fund financial statements.

iv) Capital assets - Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental activities column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial individual cost of more than \$1,000 (\$10,000 for infrastructure) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Governments can elect to account for infrastructure assets either retroactively to June 15, 1980, or prospectively. The Township has elected to account for infrastructure assets prospectively, beginning January 1, 2004.

Township of Mason
NOTES TO FINANCIAL STATEMENTS (Continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

d) Assets, liabilities, and net assets or equity (Continued):

iv) Capital assets (continued) - The Township includes shared road and water system improvement costs in the infrastructure assets of its governmental activities. These costs represent the Township's portion of public road improvements for roads that are owned by the Cass County Road Commission and water system improvements that are owned by the Cass County Department of Public Works.

Capital assets are depreciated using the straight-line method over the following useful lives:

Land improvements	20 - 40 years
Buildings and improvements	20- 40 years
Equipment	3 - 5 years
Roads	30 years
Sewer lines	40 years

v) Fund equity - In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

vi) Property tax revenue recognition - Property taxes are levied as of December 1 on property values assessed as of December 31 of the prior year. The billings are due on or before February 14, after which time the bill becomes delinquent and penalties and interest may be assessed by the Township. Property tax revenue is recognized in the year for which taxes have been levied and become available. The Township levy date is December 1, and, accordingly, taxes have been deferred from recognition as revenue until the following year.

vii) Special assessment recognition - In governmental funds, special assessment revenue is recorded as deferred when initially assessed. Revenues are recognized to the extent that special assessments are collected. Interest income on special assessments receivable is not accrued until its due date.

NOTE 2 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY:

Budgetary information - Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. The budget document presents information by fund, function, and department. The legal level of budgetary control adopted by the governing body is the function level. All annual appropriations lapse at the end of the fiscal year.

The following schedule sets forth significant budget variations:

<u>Fund</u>	<u>Function</u>	<u>Amended budget</u>	<u>Actual</u>	<u>Variance</u>
General	Community and economic development	\$ 5,043	\$ 6,127	\$ (1,084)

Township of Mason
NOTES TO FINANCIAL STATEMENTS (Continued)

NOTE 3 - CASH:

The Township's cash is as follows:

	<u>Governmental activities</u>	<u>Fiduciary</u>	<u>Totals</u>
Cash	\$ 764,450	\$ 1,421	\$ 765,871

State statutes and the Township's investment policy authorize the Township to make deposits in the accounts of federally-insured banks, credit unions, and savings and loan associations. The Township's deposits are in accordance with statutory authority. At March 31, 2006, the Township had deposits with a carrying amount of \$765,871.

Custodial credit risk is the risk that, in the event of the failure of a financial institution, the Township will not be able to recover its deposits. Deposits are exposed to custodial credit risk if they are not covered by federal depository insurance and are uncollateralized. At March 31, 2006, \$476,516 of the Township's bank balances of \$776,516 was exposed to custodial credit risk because it was uninsured and uncollateralized.

The Township believes that it is impractical to insure all bank deposits due to the amounts of the deposits and the limits of FDIC insurance. As a result, the Township evaluates each financial institution with which it deposits funds and assesses the risk level of each institution. Only the institutions with an acceptable estimated risk level are used as depositories.

NOTE 4 - RECEIVABLES:

Receivables as of year end for the government's individual major funds are as follows:

<u>Fund</u>	<u>Accounts</u>	<u>Property taxes</u>	<u>Special assessments</u>	<u>Inter- governmental</u>	<u>Totals</u>
General	\$ 4,200	\$ 6,261	\$ -	\$ 28,738	\$ 39,199

NOTE 6 - LONG-TERM LIABILITIES:

Long-term debt at March 31, 2006, is comprised of the following individual issues:

Contracts payable:

\$1,492,876 contracts payable, due to Cass County Department of Public Works payable in annual installments ranging from \$57,640 to \$86,460, plus interest at 4.00% to 4.90%; final payment due May 2024 \$ 1,492,876

Long-term liability activity for the year ended March 31, 2006, was as follows:

	<u>Beginning balance</u>	<u>Additions</u>	<u>Reductions</u>	<u>Ending balance</u>	<u>Amounts due within one year</u>
Contracts payable	<u>\$ 1,492,876</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 1,492,876</u>	<u>\$ 57,640</u>

Debt service requirements at March 31, 2006, were as follows:

	<u>Principal</u>	<u>Interest</u>
Year ended March 31:		
2007	\$ 57,640	\$ 63,801
2008	57,640	61,496

2022 - 2026	<u>337,194</u>	<u>31,935</u>
Totals	<u>\$ 1,492,876</u>	<u>\$ 678,765</u>

The Township is contingently liable for \$118,621 of outstanding water and sewer system contracts payable in excess of the amounts, which are to be repaid from collections of special assessments currently levied against properties within the Township. The Township has pledged its full faith and credit toward the total amounts due and anticipates that additional future assessments and other customer charges will be used to pay the contract liabilities.

NOTE 7 - DEFERRED REVENUE:

Governmental funds report deferred revenues in connection with revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received but not yet earned. At the end of the current fiscal year, deferred revenues consist of unavailable special assessments.

Township of Mason
NOTES TO FINANCIAL STATEMENTS (Continued)

NOTE 8 - JOINT VENTURE:

The Township has joined the Township of Porter in establishing a joint public safety authority (the authority) to provide fire protection services, emergency medical services, police protection, and related emergency health and safety services in the authority's area of operation, which includes the Township of Mason. The operations of the authority are financed by annual contributions within the participating units of government. During the year ended March 31, 2006, the Township contributed \$77,411 towards the authority's operations.

NOTE 9 - RISK MANAGEMENT:

The Township is exposed to various risks of loss related to property loss, torts, errors and omissions, and employee injuries (workers' compensation). The Township has purchased commercial insurance for each of these claims and is neither self-insured, nor participates in a shared-risk pool. Settled claims relating to commercial insurance have not exceeded the amount of insurance coverage in any of the past three fiscal years.

NOTE 10 - CONSTRUCTION CODE ACT:

A summary of construction code enforcement transactions for the year ended March 31, 2006, is as follows:

Revenues	\$ 30,420
Expenses	<u>(28,222)</u>
